FEBRUARY

The Bible tells a story.

Before we begin reading key passages that give an overview of our Bible, let's look at a brief overview of how stories we are familiar with fit together.

God created **Adam**. Adam sinned and renounced his position as a son of God. This choice affected all of mankind after him. God put into action His plan of redemption in which various people throughout the Bible played key roles.

Noah's obedience to build an ark in the midst of a perverse generation rescued his family from doom and gave us a picture of Jesus, our salvation.

Abraham was promised that his children would be as numerous as the stars and sand. His grandson, Jacob's name, was changed to **Israel**. Israel became a nation and was set apart by God to bring the Messiah into the world.

Israel veered many times from God's plan, but He rescued them time and again by sending prophets to remind them of His Redemptive plan.

Mary and Joseph were chosen to raise in their home the Son of God who would take away the sin of the world.

Our New Testament reveals more fully the effects of what this Redemptive Story means to you and me.
