

The Bible tells a story.

It's the story of a Father who desired children. He created His children with the capacity to choose life with Him or life separated from Him. Man chose life apart and that decision by one man, Adam, affected all mankind who came after him. But God, who is so great in mercy, made a way for man to be reunited, restored and redeemed back to his original position as sons and daughters of the Most High God. The Bible is an unveiling of this story of redemption. The Old Testament is filled with word-pictures that give us an idea of what our Saviour, Jesus, would do when He came to earth. The innocent lambs slain, the serpent lifted up on a pole, the access a priest had to the Presence of God - each element reveals portions of God's plan to win His family back with the full accomplishment of His Redemptive plan occurring at Jesus' death, burial and resurrection.
